SUMMARY OF ISSUES DISCUSSED AND COMMENTS RECEIVED

Talked to Vickie Smith - OEA will be representing producers of MTBE. She wanted the names of the states and who to contact on groundwater contamination. George Dominguez will be the coordinator - they would like to meet and address the issues raised in the focus mtg. They have about 6 people who would meet with us to address issues raised in the focus meeting. I said EPA - TRDA is still in the data gathering phase - If they have any information to send it in. She wanted to look at the ~~list~~ docket and I told her I hadn't started the docket.
